Monaghan Plastics Controlled Working Environment

26 June 2009

To Whom It May Concern:

BarkerTechn moulded components are manufactured within our Controlled Working Environment (CWE). This environment includes positive air pressure, filtered air, temperature & humidity controlled. Our staff wears lint free antistatic dustcoats and hairnets. Hands are sanitized and surfaces are periodically wiped with isopropyl alcohol.

Our customers include a Microbiological division of 3M, Fisher & Paykel Healthcare as well as several small emerging biomedical companies.

Regards

John Fowler

Director

Monaghan Plastics
